

# ITC237-PU1B-IR 2 Megapixel Full HD WDR Access ANPR Camera

- ·Embedded with LPR algorithm inside the camera
- ·Support plate cutout, overview picture snapshot and video recording
- •Embedded with White list database, control the barrier •Powerful 5-50mm manual lens and IR light, ideal for long distance ANPR as far as 40m
- •Wide working temparature, IP66 and superior performance for outdoor applications
- ·True WDR technology

### **System Overview**

Featuring a True Day/Night, 2-megapixel resolution LPR camera in low speed environment, such as parking, access control and urban street. It supports video detection and recognizes the plate in low speed less than 60kmh with embedded LPR algorithm. White list database inside the camera control the barrier opened. This model provides an all-in-one solution for capturing long distance license plate with long focus lens and strong IR lighting in outdoor applications. True WDR for environment with direct sunlight or glare,even head light on when the vehicle approach.

### **Functions**

### Embedded license plate recognition algorithm

With built-in intelligent video analytics, the camera has the ability to detect and recognize moving vehicle's plate number within low speed. No matter for the approaching or departure vehicle, access ANPR camera will take a snapshot for plate cutout, vehicle overview picture and also record the surveillance video.

### **Embedded White list**

Embeded with white list inside the camera, control the barrier opened by the camera relayout if the plate number recognized is in the white list.Support to import batch list as much as 10000 records.

### Wide Dynamic Range

Embeded with industry leading wide dynamic range (WDR) technology, vivid plate picutures are achieved even in the most intense contrast lighting conditions. For applications with both bright and low lighting conditions that change quickly or the head light of vehicle is on at night, True WDR (140dB) optimizes both the bright and dark areas of a scene at the same time to provide usable video of plate.

### **Multiple Detection**

The camera supports loop and video detection, it is more stable when the system is used for controlling the barrier or counting the vehicle number in the access control, also even the loop detection is accident, video detection will be instead automatically.

### Environmental

With a temperature range of -30 °C to +60 °C, the camera is designed for extreme temperature environments. Subjected and certified to rigorous dust and water immersion tests, the IP66 rating makes it suitable for demanding outdoor applications. For environments with rain, sleet, snow and fog, an integrated wiper provides users with clear visibility at all times.

# **Technical Specification**

### Camera

Image Sensor	1/2.8" 2Megapixel Starvis R CMOS
Effective Pixels	1920(H)x1080(V)
Scanning System	Progressive
Minimum Illumination	0.002Lux/F1.6 (color); 0Lux/F1.6 (IR on)
Electronic Shutter Speed	1/50~1/10000
IR Distance	40m
IR LEDs	6

Lens		

Barrier control

Lens Type	Manual/Auto Iris(DC)
Mount Type	CS
Focal Length	5-50mm option
Max Aperture	F1.6
Angle of View	H: 50°~ 5.6 ° V:37.5 ° ~4.2 °
Focus Control	Manual
Close Focus Distance	4~40m for license plate (Different height required, >10m long range recommendation)
Focus Width Range	1~2 lanes width
Focus Width Range	1~2 lanes width
	1~2 lanes width Embedded with lpr engine in the camera
Intelligence	
Intelligence LPR function	Embedded with lpr engine in the camera
Intelligence LPR function Detection model	Embedded with lpr engine in the camera Loop or video detection
Intelligence LPR function Detection model Snapshot	Embedded with lpr engine in the camera Loop or video detection Overview and cutout of plate for picture

2 ch relay out to control the barrier
